# R1S Cargo Cover

The cargo cover is a retractable cover that is available as an option for all R1S trim levels. You can use it to shade your cargo from damaging ultraviolet rays or to obscure your cargo.
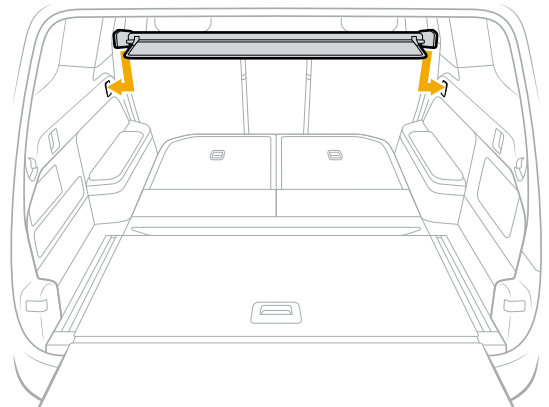

Install the Cargo Cover

To install the cargo cover with third row seats down, do the following:

- Hold the cover with the flap facing the rear door of the vehicle.
- Ensure the raised side of the cargo cover flap is on top.
- Insert one end of the cover into either the left or right side notch closest to the front of the vehicle.

  > **NOTE**
  > The ends of the cargo cover are spring loaded.

- Push the other end and snap it into the corresponding notch on the opposite side.

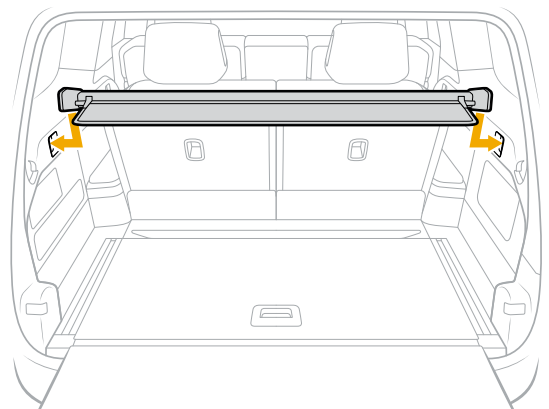

To install the cargo cover with third row seats up, do the following:

- Hold the cover with the flap facing the rear door of the vehicle.
- Ensure the raised side of the cargo cover flap is on top.
- Insert one end of the cover into either the left or right side notch closest to the rear door.
  > **NOTE**
  > The ends of the cargo cover are spring loaded.

- Push the other end and snap it into the corresponding notch on the opposite side.

To draw the cover over the cargo area, do the following:

- Hold the flap firmly and pull it toward the rear of the vehicle.
- Insert the ends into the corresponding notches.

Remove the Cargo Cover

- Pull the tabs on both ends out of the notches.
- Let the cover retract fully.
- Push one side of the cargo cover bar in toward the notch and lift it out of the notch.
- Lift the other side from the opposite notch.
